

11th IEEE International Symposium on Smart Electronic Systems

15th-17th Dec. 2025

Jaipur INDIA

Call for Pre Conference Tutorials – IEEE iSES 2025

The IEEE-iSES 2025 invites proposals for **Pre Conference Tutorials** that explore emerging trends and concepts covering a broad range of topics in the areas related to the design and applications of Smart Electronic Systems & VLSI.

In particular, special sessions, both academic as well as industrial, concerning novel topics in Smart Systems, including those dealing with the introduction and discussion of emerging problems, or addressing recent technical trends in home automation, wearables, healthcare, smart cities, supply chains, and smart farming, intelligent and autonomous systems, and others that are of interest to IEEE-iSES participant, are encouraged to apply.

Pre Conference Tutorials would be for 2– 3 hours and will be conducted two days prior of 13 Dec and 14 Dec, 2025.

Session proposal submission Guidelines: Prepare a single PDF file (around 1-2pages), using the template, for the proposal where you:

- describe the session topic, the format, and intended audience, and
- include a list of speakers, their biographical sketch, presentation titles and possibly a short abstract.

Submit your **Pre Conference Tutorials** in Microsoft CMT. (See Paper Submission Page for more details).

The online submission system, Microsoft CMT, will be used for review of the **Pre Conference Tutorials**. Detailed submission instructions will be provided upon acceptance of the proposal.
